Databases & Tools: MongoDB, PostgreSQL, AWS, Docker, Jenkins, Git
Methodologies: Agile, Scrum, Test Driven Development
Professional Skills: Leadership, Team Collaboration, Project Management

WORK EXPERIENCE

Senior Full Stack Developer
TechVision Solutions, San Francisco, CA | March 2022 - Present

Led development of scalable web applications using React, Node.js, and Python frameworks

Architected microservices using Spring Boot and Flask, improving system performance by 35%

Managed AWS infrastructure and implemented Docker containerization for deployment

Mentored 3 junior developers and established coding standards across teams

Implemented CI/CD pipelines using Jenkins, reducing deployment time by 50%

Software Developer
Digital Innovations Inc., Austin, TX | June 2019 - February 2022

Developed full-stack applications using JavaScript (React, Node.js, Express) and Python (Django)

Designed and optimized MongoDB and PostgreSQL databases for high-traffic applications

Collaborated in Agile/Scrum teams to deliver features in 2-week sprints

Built mobile applications using React Native for cross-platform deployment

Implemented Test-Driven Development practices achieving 95% code coverage

Junior Developer
StartUp Labs, Boston, MA | July 2018 - May 2019

Contributed to front-end development using React, HTML5, and CSS3

Assisted in backend API development with Express and Flask

Participated in code reviews and implemented Git version control best practices

Supported database management with MongoDB and SQL queries

EDUCATION

Bachelor of Science in Computer Science
Massachusetts Institute of Technology, Cambridge, MA
Graduated: May 2018 | GPA: 3.7/4.0

PROJECTS

E-Commerce Platform | GitHub: /alexchen/ecommerce

Full-stack application with user authentication, payment processing, and admin dashboard

Technologies: MERN Stack (MongoDB, Express, React, Node.js), AWS, Docker

Task Management App | GitHub: /alexchen/taskmanager

Mobile application with real-time updates, push notifications, and offline functionality

Technologies: React Native, Python/Flask, PostgreSQL

API Gateway Microservice | GitHub: /alexchen/apigateway

Scalable microservice architecture with load balancing and rate limiting

Technologies: Java/Spring, Docker, Jenkins, AWS

CERTIFICATIONS

AWS Certified Developer Associate

Scrum Master Certification (CSM)

MongoDB Certified Developer
