PROFESSIONAL SUMMARY

Motivated full-stack developer with experience in React, Node.js, MongoDB, and deep learning projects. Skilled in building scalable web apps, API development, business research, and software system design.

SKILLS

Programming Languages: JavaScript, Python, Java

Frontend: React, Redux Toolkit, Tailwind CSS, Vite

Backend: Node.js, Express.js

Database: MongoDB, PostgreSQL

Tools: Swagger, Git, Linux Mint, Postman

AI & ML: Deep Learning, LSTM, CTC Loss, Handwriting Recognition

Other Skills: Web scraping, API integration, Business analysis

WORK EXPERIENCE

Software Developer — TechNepal Pvt. Ltd. (Jan 2024 – Dec 2024)

- Developed full-stack web applications using React, Node.js, MongoDB.

- Built resume–job description matching using cosine similarity.

- Implemented RBAC for school management system.

- Created API documentation using Swagger.

- Improved system performance and solved production bugs.

PROJECTS

1. CareerNexus — Job Portal with AI Matching

- Built frontend in React + Redux Toolkit.

- Processed resumes (PDF) and used cosine similarity for job matching.

- Implemented secure token-based login and backend API in Node.js.

2. Hotel Management System

- Created booking, check-in/out, and customer handling with Redux Toolkit.

- Used MongoDB aggregation to count daily customers.

3. Digital Forensics Case Study (20-page PDF)

- Analyzed real Nepal-based digital forensics scenario.

- Documented methodology, chain of custody, evidence reporting.

4. Online Chatting App (Java Swing)

- Built server–client chat system using sockets.

- Added message broadcasting, UI design, and error handling.

EDUCATION

Bachelor of Computer Science & Information Technology (BSc CSIT)

Tribhuvan University, Nepal (2019 – 2023)

CERTIFICATIONS

- React + Frontend Development Certification

- Node.js Backend API Development

- Deep Learning & LSTM Models

- IELTS Preparation Course (Ongoing)

LANGUAGES

Nepali — Native

English — Fluent

Hindi — Conversational

INTERESTS

Business research, crypto trading, machine learning, fitness & futsal
