SURAJ GAUTAM

Front-End Developer (React.js / MERN Stack)

Bagmati, Kathmandu • +977 9868780996 • surajgautam1111@gmail.com

LinkedIn • Portfolio • GitHub

PROFILE

Front-end developer with hands-on experience in React.js and working knowledge of the MERN stack (MongoDB, Express, React, Node.js). Skilled at building responsive, user-friendly web applications and comfortable picking up new tools and frameworks quickly. Currently expanding into data science and machine learning fundamentals, with an interest in eventually combining web development with data-driven features.

EXPERIENCE

Front-End Developer

Oct 2024 – Mar 2025

LaxmiSoft Pvt. Ltd, Kathmandu

- Built and maintained user interfaces using React.js as part of a product development team.
- Strengthened core skills in JavaScript, React, HTML, and CSS while working within real-world development workflows and version control practices.
- Collaborated with the team to implement UI features and fix front-end issues in a live production codebase.

SKILLS

Programming: JavaScript (ES6+) · Python · HTML5 · CSS3 · SQL · Data Structures & Algorithms · Object-Oriented Programming (OOP)

Frontend Technologies: React.js · React Router · Redux Toolkit · Tailwind CSS · Axios · Vite . Responsive Web Design

Backend Technologies: Node.js · Express.js · RESTful APIs · JWT Authentication · WebSockets . Role-Based Access Control (RBAC) · Swagger/OpenAPI

Databases: MongoDB · Mongoose · MySQL · Database Design · CRUD Operations

Machine Learning & Data Analysis: Pandas · NumPy · Matplotlib · Scikit-learn · Data Preprocessing · Model Evaluation · Resume Similarity Detection

Development Tools: Git · GitHub · Postman · VS Code · DBeaver · MongoDB Compass · npm · Yarn

Software Engineering: API Integration · Authentication & Authorization · MVC Architecture · Responsive UI Development · State Management · Agile Development

EDUCATION

BSc. Computer Science and Information Technology (CSIT) *May 2022 – Jun 2026*

Bhaktapur Multiple Campus

- Coursework in programming, databases, networking, and software development; includes an internship in the 8th semester.

Intermediate in Computer Engineering (Technical) *Apr 2019 – Feb 2021*

Kalika Manavgyan Secondary School

- Two-year technical program including a one-year On-the-Job Training (OJT) Programme.

PROJECTS

CareerNexus - AI-Powered Job Portal & Resume Screening System/ Github_repo

7th Semester Major Project | MERN Stack · Python · Machine Learning

- Developed a full-stack job portal with AI-based resume screening and candidate-job matching using React.js, Node.js, Express.js, MongoDB, Python. Implemented resume parsing, TF-IDF, Cosine Similarity, authentication, and role-based access control (RBAC).

Machine Learning / Github_repo

- Self-directed exploration of ML fundamentals using Python, with notebooks covering data handling and basic model building

Computer Institute Website

Scholars Computer Institute

- Built a full website using HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL — live at scholarscomputerinstitute.com.np

TRAINING & CERTIFICATIONS

Data Science and Machine Learning *2024*

Deerwalk Computer Institute and Training Center

- Coursework and self-study covering data analysis, data visualization, supervised and unsupervised learning, and model evaluation.
- Applied Python, Pandas, NumPy, Matplotlib, Scikit-learn, and Jupyter Notebook on different projects.
