💼 Professional Summary

Dedicated and performance-focused **Backend Developer** with 4 years of experience designing and maintaining secure, scalable, and high-performance server-side applications. Proficient in building RESTful APIs, managing databases, and integrating third-party services. Strong advocate for clean architecture, automation, and microservices development.

🧠 Technical Skills

Languages: JavaScript (Node.js), TypeScript, Python, Go
Frameworks: Express.js, NestJS, FastAPI, Django
Databases: PostgreSQL, MongoDB, Redis, MySQL
Cloud & DevOps: AWS (EC2, S3, RDS), Docker, CI/CD, Nginx, GitHub Actions
API Tools: Swagger, Postman, GraphQL
Security: JWT, OAuth 2.0, bcrypt, Helmet.js
Others: Linux, Redis Caching, WebSockets, Queue Systems (RabbitMQ, BullMQ)

🏢 Work Experience

Backend Developer
CloudMatrix Technologies, Kathmandu | *Jan 2022 – Present*

- Designed and implemented a microservice architecture for a large-scale e-commerce system.
- Created optimized APIs in **NestJS** and **PostgreSQL**, reducing latency by 30%.

- Integrated **Redis caching** and **AWS S3 storage** for image handling and performance boost.
- Managed authentication and authorization using **JWT** and **Role-Based Access Control (RBAC)**.
- Built CI/CD pipelines using **GitHub Actions** for automated testing and deployment.

Junior Backend Developer
ByteForge Labs, Pokhara | *May 2020 – Dec 2021*

- Built backend modules for a travel booking platform using **Express.js** and **MongoDB**.
- Developed RESTful endpoints for user booking, payment, and notifications.
- Collaborated with frontend teams to integrate APIs efficiently.
- Wrote unit and integration tests with **Jest** to ensure 95% code coverage.

🎓 Education

Bachelor of Engineering in Software Engineering
Pokhara University, Nepal | *2016 – 2020*

🧩 Projects

BookNest – Online Library System

- Developed a complete backend system for book rentals and subscriptions.
- Used **Node.js**, **Express**, and **MongoDB** with **JWT authentication** and **role-based access**.
- Integrated **email notifications** using Nodemailer and cron jobs.

TaskPilot – Project Management API

- Built a REST API for managing team projects and deadlines using **FastAPI + PostgreSQL**.
- Implemented **WebSocket-based live task updates** for real-time collaboration.
- Deployed using **Docker** and **Nginx** on AWS EC2.

PaySecure – Payment Gateway Integration

- Designed backend microservices to process online payments via **Stripe API**.
- Added fraud detection logic and API rate limiting with **Express middleware**.

🏆 Certifications

- **Node.js Backend Developer Certificate** – Udemy (2023)
- **AWS Certified Developer – Associate** – Amazon (2022)
- **API Security Fundamentals** – Postman Academy (2021)

💬 Languages

- Nepali (Native)
- English (Fluent)
- Hindi (Conversational)

💡 Interests

API design, cloud architecture, DevOps automation, and open-source backend frameworks.
