💼 Professional Summary

Experienced **DevOps Engineer** with over 3 years of experience designing and maintaining **automated CI/CD pipelines** and **cloud infrastructure**. Skilled in **AWS, Docker, and Kubernetes** for deploying scalable applications. Proficient in **Terraform**, **Jenkins**, and monitoring tools like **Prometheus** and **Grafana**. Strong background in automation, scripting, and infrastructure management.

🧠 Technical Skills

AWS, Docker, Kubernetes, Terraform, Ansible, Jenkins, GitHub Actions, Linux, CI/CD, Prometheus, Grafana, Nginx, Bash, Cloud Automation

---

🏢 Work Experience

DevOps Engineer
SkyOps Solutions Pvt. Ltd., Kathmandu | *Jan 2022 – Present*

- Designed and maintained **automated CI/CD pipelines** using **Jenkins** and **GitHub Actions**.
- Managed **AWS services**, **Docker containers**, and **Kubernetes clusters** for scalable deployments.
- Implemented **Terraform** and **Ansible** for infrastructure automation.
- Deployed monitoring and alerting solutions using **Prometheus** and **Grafana**.

- Automated system tasks using **Bash scripting** and **Linux tools** to optimize performance.

Junior DevOps Engineer
CloudMatrix Technologies, Pokhara | *Jan 2020 – Dec 2021*

- Assisted in configuring **AWS EC2, S3**, and **RDS** instances for production environments.
- Created and maintained **Docker images** for microservice-based applications.
- Supported **Kubernetes** deployments and troubleshooting.
- Helped integrate **CI/CD pipelines** using **Jenkins** and **GitHub Actions**.

🎓 Education

Bachelor's Degree in Computer Engineering
Kathmandu University, Nepal | *2016 – 2020*

🧩 Projects

AutoDeploy – CI/CD Automation Tool

- Built an **automated CI/CD pipeline** using **Jenkins**, **GitHub Actions**, and **Docker**.
- Integrated deployments with **AWS** infrastructure and **Terraform** scripts.

KubeWatch – Cloud Monitoring System

- Deployed a full observability stack using **Prometheus**, **Grafana**, and **Nginx** for metrics and visualization.
- Automated alerts for node health, CPU, and memory usage.

InfraFlow – Infrastructure as Code System

- Developed **Terraform** templates and **Ansible playbooks** for rapid infrastructure provisioning.
- Implemented **Kubernetes** cluster scaling on **AWS EKS** with **Bash automation scripts**.

🏆 Certifications

- **AWS Certified DevOps Engineer – Professional** (2023)
- **Docker and Kubernetes Mastery** – Udemy (2022)
- **Terraform Associate Certification** – HashiCorp (2021)

💬 Languages

Nepali (Native), English (Fluent), Hindi (Conversational)

💡 Interests

Cloud infrastructure, container orchestration, automation scripting, and CI/CD innovation.
